STRAIN

BALANCE
(HYBRID)

Blueberry Cupcake has a delicious aroma that resembles a blue raspberry slushie with hints of cheese and mint, hard to pinpoint until you experience it!

This cultivar features mild blueberries, cheeses, and mint. The dominant terpene of this strain is myrcene, which gives it an earthy and fruity flavor.

Effects include feeling relaxed, happy, and euphoric. Medical patients often choose this line when dealing with symptoms associated with pain, insomnia, and nausea.

Note: Woodball Cut.
