PHYTOL  
A-BISABOLOL

## EFFECTS

UPLIFTING

RELAXING

FOCUSED

## STRAIN

BALANCE  
(HYBRID)

Self-proclaimed to be their loudest, sourest strain, Afficianado hit it out of the park with VSPEC. The flower has a strong terpenes profile, with an old-school diesel smell; complete with that sour accent guaranteed to light up your nose.

Fuel, Gas, and Acid-sour flavors come from this amazing pedigree. If you like OG's, Sours, and Gassy selections this very well may be the one for you!

You can expect a middle of the road energy from this one, get things done, or rest easy – it's up to you! Also said to have a high ceiling so the more you have, the heavier the effect – a fair warning to the novice consumer!

*Note: This cultivar was named in honor of one of the best supercars ever, the Skyline GTR V-SEC*
